

LA40 Concrete foam agent

Describe

Our LA40 Concrete foam agent is made of vegetable oil and protein, poisonless harmless and nonflammable. it is also one kind of environmental protection material. besides routine composition, we have added some special ingredients to make the foam more stable and foam concrete more stronger.

Characteristic

1. Poisonless harmless and nonflammable, safe to human and friendly to environment.
2. It is in liquid form, easy to transport and use.
3. Easy to store and long shelf time.

Application

Apply to CLC block, lightweight wall panel, floor heating and roof insulation, precasting and other application of foam concrete.

Parameter

Item	Specifications
Appearance	Light yellow pure transparent oily liquid
Density(kg/L)	1.06
PH value	6.8-7.2
Content of inorganic salts	$\leq 0.5\%$
Water absorption	$\geq 40\%$
Color(APHA)	≤ 50
Consumption(kg/m3)	0.35-0.45

Temperature(°C)		>=5
Safety		Chemically inactive, non-toxic, odorless, non-flammables
Weight(kg)	Small barrel	50
	Big barrel	200
