

LH100-915B China Foam Concrete Pump for Sale**► Description**

LH100-915B China Foam Concrete Pump for Sale consists mainly of pump house, rotor, roller, idle roller, squeeze tube and driving unit. The squeeze hose is U-shape in pump house, when rotor drives roller to rotate, hose is deformed. After the roller rotate, the deformed hose recover by its elasticity.

Thus the negative pressure in this hose is generated, sucking slurries, and discharging through outlet under roller's push, finally forms pressure conveying of slurries.

► Application

◆ LH series industrial hose pump are mainly applied in distant conveying, grouting and dosing of viscous slurries in construction, mining, food, papermaking, ceramic, etc.

◆ LEC industrial peristaltic pumps can be used in following field: Construction, pharmacy, textile mill, dye making, water treatment, paper making, mining, ceramic, brewery and beverage, underground engineering, etc. It's perfect to pump corrosive, abrasives, shear

sensitive fluids, high viscosity fluids, high density fluids, large solids, metering($\pm 1\%$), high pressure(3Mpa). LH series industrial hose pump are mainly applied in distant conveying, grouting and dosing of viscous slurries in construction, mining, food, papermaking, ceramic, etc.

► Features

- ◆ No seals
- ◆ No valves
- ◆ Self -priming
- ◆ Only tube to replace
- ◆ Dry -running without damage
- ◆ Reversible
- ◆ No contact between product and mechanical parts
- ◆ Able to pump products with solid parts inside
- ◆ Easy maintenance, low-cost, short down time

► Technical Data:

Type	LH100-915B
Max. output	40m ³ /h
Rotation	45 RPM
Squeeze hose ID	102mm
Working pressure	7.5 bar
Voltage	3 phase, 380V, 50HZ
Power	18.5 KW
