

Double piston mortar plastering pump

Double piston wall plastering machine is highly in demands for its market leading prices and timely delivery attribute. Machine can provide up to 240 square meters per hour quality plastered surface per day. It is designed to use the traditional mortar materials. Double piston mortar plastering machine can plaster interior, exterior, on the walls, on the ceiling, in narrow corridors and rooms. Double piston pump requires minimum maintenance compare to screw pumps. With SUB8.0 double piston spraying pump is the time to reduce remarkably the costs, to finish extremely fast and to provide premium quality of the plastered surfaces.

Applications:

1. Wet spraying of lime and cement mortars with any kind of sand such as crushed rock sand, quarry sand, desert sand, washed river or sea sand, dune sand etc., almost all type of plaster and ready mixed plasters in sacks for interiors and exteriors.
 2. Conveying floor screed.
 3. Conveying lightweight concrete, insulation materials and self-leveling floor screed.
- Spraying cement mixers and mortar to coat cracks and refurbish old buildings, bridges, tunnels

etc.

4. Spraying cement mixers on mesh panels.
5. Conveying cement mixers, slurries and mortar for flooring beds.
6. Conveying masonry mortar for building walls. Injection of cement grout.
7. It can be used under silos.

Unique advantages:

1. It is powerful.
2. It can be used in a broad range of applications.
3. It is equipped with advanced pump which provides smooth pumping without interruptions.
4. It is ideal for the most difficult materials in the most difficult conditions.
5. SUB 8.0 is a complete and compact working station for restoring, pumping and spraying.
6. SUB8.0 provides high performances:
7. Large output
8. Long convey distance and big delivery height
9. It is reliable
10. It requires minimum maintenance.
11. It has many features.

Technical parameters:

Name	Double piston mortar plastering pump
Model	SUB 8.0
Output	8m ³ /h
Pumping Pressure	8Mpa
Main motor	11kw
Vibrator	0.75kw
Max. Aggregate Size	5mm
Max. Vertical Conveying Distance	30-45m
Max. Horizontal Conveying Distance	100-150m
Weight	700kg
