

LMP3 Screw Type Plaster Machine Price

screw type plaster machine, wall plaster machine, automatic plaster pump, full automatic plaster machine, full automatic screw type plaster machine

Full automatic screw type plaster machine is a screw pump high-pressure mortar spraying machine, with advanced technology, simple operation and maintenance. Automatic wall plaster machine can be operated skillfully without special training. Basically no ash falls, water, and material, the cost can be reduced more than 20%. This screw type plaster machine is simple operation, speed, high efficiency, low labor intensity. And this full automatic plaster machine carries with an air compressor.

Features:

1. This automatic plaster pump is continuous feeding, no pulse;
2. Reasonable design, pumps and compressors integrated, easy to move;
3. Wide application, can spray powder, mortar, also can spray ordinary mortar;
4. The special design of the working valve chamber ensures the mortar flow easily, small

resistance, no deposition, spray evenly, strong adhesion;

5. Full automatic screw type plaster machine is equipped with special mortar nozzle, making spraying operation more smoothly, continuously and reducing the rebound effectively.

Screw type plaster machine is designed to mortar spraying, grout cement, mud, slurry, etc. It's also commonly used in backfill and consolidation grouting in road, highways, tunnels, railways, hydroelectric power station and underground chambers construction

Technical parameters:

Model number	LMP3
Output	3 m ² /h
Max. pressure	3Mpa
Horizontal transport distance	60m
Vertical transport distance	30m
Power of main motor	7.5kw/12hp
Maximum particle size	4mm
Inner diameter of the transport pipe	25/32mm
Bucket capacity	80L
Air compressor	0.3 m ² /h
Overall dimension	1460*60*1100mm
Weight	360kg
