

LHPP16/50-18.5E Electric Hydraulic Power Pack Price

Description

LHPP16/50-18.5E electric hydraulic power pack with a motor on the top of the power pack and pump inside the tank, thus get a compact structure, power consumption small power, sufficient power, and small size, easy to move, can work stably even in a harsh working environment. Electric hydraulic power pack price is reasonable, powerful, it is used for driving hydraulic cylinder, hydraulic motor, and other hydraulic actuators.

Application

LHPP16/50-18.5E electric hydraulic power pack price is reasonable, powerful, stable performance, long life, it is widely used as hydraulic driving for engineering machinery, construction machinery, and mining machinery.

electric hydraulic power pack uses electric drive devices, can be applied in areas where power supply is not convenient, simple structure, stable performance, sufficient power, small size for easy movement. It is the preferred equipment for hydraulic drives.

We have a diesel hydraulic power pack and electric hydraulic power pack for options, the hydraulic power pack price for different configurations is different, you can choose the most suitable hydraulic power pack to meet your needs in different projects.

地址 ADD: 郑州市中原区西流湖街道办事处铁炉村西四环东

Features

1. Electric hydraulic power pack with Siemens electric motor, strong power and excellent quality
2. Hydraulic power pack is a stepless variable output, general type, which is very versatile
3. Electric hydraulic power pack compact structure and small volume
4. LHPP16/50-18.5E electric hydraulic power pack price is reasonable, powerful, stable performance, long life.

Technical Specification

Type	LHPP16/50-18.5E
Rated Pressure	16MPa
Output	50L/min
Electric power	18.5kw
Oil tank	200 L
Directional Valve	DC24V, Solenoid operated (Yuken)
Weight	450KG
We also could according to your demands to design suitable type for you
