

## **LHPP20/30-15E Electric Hydraulic Power Pack Supplier**

### **Description**

LHPP20 / 30-15E electric hydraulic power pack is a hot product produced by Lead Equipment Co., Ltd. hydraulic power pack supplier and manufacturer, it is used for driving hydraulic cylinder, hydraulic motor, and other hydraulic actuators. Hydraulic power pack with a motor on the top of the power pack and pump inside the tank, thus get a compact structure, power consumption Small power, sufficient power, and small size, easy to move, can work stably even in harsh working environment.

### **Application**

LHPP20 / 30-15E electric hydraulic power pack is a hot product produced by Lead Equipment Co., Ltd. hydraulic power pack supplier, it widely used as hydraulic driving for engineering machinery, construction machinery, and mining machinery.

Electric hydraulic power pack uses electric drive devices, with low power consumption, high power, strong power, and small size for easy movement. It is the preferred equipment for hydraulic drives.

As a hydraulic power pack supplier with 20 years of experience, we have developed a variety of hydraulic power packs, we have a diesel hydraulic power pack and electric hydraulic power pack for options, to meet your needs in different projects.

## Features

1. Hydraulic power pack is equipped with Changchai steam type water cooling diesel engine.
2. Electric hydraulic power pack with wheels, move easily, very suitable for use at construction site.
3. Hydraulic power pack suitable for rough work circumstance, no matter what the project has outstanding performance, is the preferred equipment for hydraulic drive.

## Technical Specification

Type	LHPP20/30-15E
Rated Pressure	20MPa
Output	0-30L/min
Electric power	15kw, 3 phase, 380V, 50Hz Siemens motor
Oil tank	150 L
Directional Valve	DC24V, Solenoid operated (Yuken)
Dimension (L*W*H)	1100x750x1250mm
Weight	390KG

We also could according to your demands to design suitable type for you
